Change Title Interim Milestones for 200-MW-1 Miscellaneous Waste Group Operable Unit RI/FS Work Plan.		
Description/Justification of Change <p>The 200 Areas Remedial Investigation/Feasibility Study Implementation Plan – Environmental Restoration Program, DOE/RL-98-28, Rev. 0, established the approach for the assessment and remediation of 200 Area past-practice waste sites. Under this strategy, over 800 waste sites are grouped into 23 process-based operable units (OUs), which, in turn, are grouped into 9 major waste categories (e.g., process waste, landfills). This has resulted in a more streamlined remedial investigation/feasibility study (RI/FS) process and more suitable selection of tentative remedial alternatives. Only one OU (200-MW-1) is assigned to the Miscellaneous Waste Category. As a result, the 200-MW-1 OU has been identified as the representative OU for the Miscellaneous Waste Category. Based on the Implementation Plan, Tri-Party Agreement M-13 milestones were established (TPA Change Request M-13-97-01) for the submittal of RI/FS work plans for individual OUs. Under TPA Milestone M-13-00L, three RI/FS work plans are due by December 31, 2001. The 200-MW-1 OU RI/FS work plan is one of three workplans designated to satisfy Milestone M-13-00L.</p> <p>As specified in the Tri-Party Agreement, Section 11.6, work plans must specify interim milestones for the OU that identify completion dates for major tasks and deliverables specified in the work plans. The 200-MW-1 OU work plan includes a project schedule with target project milestones. Based on this work plan schedule, the following interim milestones are proposed under the Tri-Party Agreement to implement the activities for the RI/FS process.</p> <ul style="list-style-type: none"> • M-15-44A: Submit 200-MW-1 OU Remedial Investigation Report – December 31, 2001. • M-15-44B: Submit 200-MW-1 OU Feasibility Study and Proposed Plan – December 31, 2001. 		
Impact of Change. <p>The interim milestones are consistent with Tri-Party Agreement Major Milestone M-015-00C, <i>Complete all 200 Area Non-Tank Farm OU Pre-ROD Site Investigations under Approved Work Plan Schedules</i> due December 31, 2008. The change to the M-015 milestone series exceeds the completion date of the Tri-Party Agreement M-020 series milestones. The Impacts were identified and addressed in Tri-Party Agreement Change Request M-020-02-01. Alignment of workscope follows approval of the Central Plateau Change Requests.</p>		
Affected Documents <p>The Tri-Party Agreement Action Plan – Appendix D, as amended and Hanford site internal planning, management, and budget documents (e.g., USDOE and USDOE contractor Baseline Change Control documents; Multi-Year Work Plans; Sitewide Systems Engineering Control documents; Project Management Plans; and, if appropriate, the site-wide LDR Report requirements), the 200-MW-1 Miscellaneous Waste Group Operable Unit RI/FS Work Plan (DOE/RL-2001-65) and, the 200 Areas Remedial Investigation/Feasibility Study Implementation Plan – Environmental Restoration Program, DOE/RL-98-28, Rev. 0.</p>
